

Minutes – Egremont Water Meeting 13 July 2021

Meeting – Town Hall/Zoom - 3:00 PM

Participating: R. Palmucci; Poly Lanoue; N. Stalker; W. Brinker

General:

Minutes of the June 10, 2021 meeting were approved as distributed.

June gallons pumped were 1,528,880.

Leak detection continues. Because of the age of the system, small leaks are difficult to find. GBFD has been helpful with assistance with the new detector.

Transmitters continue to be changed out; we are continuing to have all transponders updated.

Large volume use is investigated; most are hose bibs or a forgotten faucet running.

Past due accounts have been making payments; they are being reminded of their past due balances.

The recent rainstorms plugged the culvert at the plant; debris has been removed. The water level was very high; water went around the structure at the dam but no damage occurred.

LCR reports are in; DEP will be asked to reduce the sampling schedule.

There may be money available from the COVID funds for standby pumps, leak detection equipment and other infrastructure.

The July billing commitment was signed in the amount of \$22,073.60

The next meeting will be August 12 at 3:00 PM.

Meeting adjourned at 3:20 PM.

Respectfully submitted,
W. Brinker
